BUREAU OF THE MINT,

Washington, D. C., March 14, 1891., *189*

The Superintendent, U. S. Mint,

Philadelphia, Pa.

Sir:

Replying to your letter of the 11th inst., in regard to the storage of silver dollars, I would say that my intention was in the latter part of May to send Mr. Butler and have him store all the silver dollars in your mint in the large vault "C", now under the seal of himself and Major Meline. I don't want to make two jobs of this, on account of the expense of travelling as well as the annoyance to your force, unless it is absolutely necessary.

In you find that you have no storage capacity for this and next months coinage, without having to use vaults which are not dry, please write me and I will send Mr. Butler over and have all your silver dollars transferred to vault "C", but I would suggest that it would possibly be better to wait a little later so that there will be less to weigh at the annual settlement.

Very respectfully,

E. O. Leech

Director.
